

God to the greeting. God greets you. I am the Spirit of Judgment. I come at the command of your and our beloved Lord and King Yeshua HaMashiach, also called Yahweh God Zebaoth.

My name is Phalgus, and so hear what the Father says:

Why don't you wake up and return to Me? How much more disaster is to come upon you, that is, a waking up, a shaking awake, as it is now in the initial labor pains? Shall it come even worse?...asks the Father. And you know that in between there is always a short time when man comes to his senses and also seeks the Father, but this has almost died out in your century.

And so it is now going from country to country where it is getting worse, because all the admonitions, the rebukes, the offers of help have been mocked and ridiculed, even though you have received so much help.

Where the sea is, it will transgress, and it will cause the land surface to sink. Where the volcanoes are, they will erupt - one after the other. Even the small rivers will overflow; one disaster after another. And if you people do not stick together in love, in a few days for Father, in a few months for you, World War III will come. It can no longer be averted. Therefore the Father says, also to His sleepers: Wake up! Warn your brothers and sisters, no matter where you are.

Flee from the church called *Babylon, the great whore* (Revelation 18), for she has already fallen. There will be only ruins where churches, cathedrals and other things once stood. Do penance! Repent! Only the Father, only the Lord counts! Nothing else!

This was the 1st part I was allowed to announce, the last one will follow shortly.

In the name of Yeshua Yahweh God Zebaoth, Amen.
