

## **Jesus explains... You are influenced by so many energies and "My eight dimensions"**

*August 30, 2022 – Words from Jesus to Udo for the heart dwellers and all who have ears and hear*

"The earth is unfathomably complex. In Heaven you will learn about all its many unusual properties, including those that affect the people of Earth without humanity being aware of them.

You will definitely be affected by the many and varied energies at play on Earth. It is so true that **sin on earth, especially deep-seated sin, when millions agree with immorality, creates energies that destroy the earth** that allows you to live.

As man becomes more and more aware of the fearful aspects of the energy created by the collective consciousness, he will use this information to manipulate it for his own selfish purposes. When I come and reclaim My domain, all this will come to an end.

My children, practice righteousness. Do not give in to the temptation to cheat, steal or manipulate. Be without guile, like Nathanael. Those who seduce others will be seduced themselves.

Lying, cheating and stealing has become a way of life for many. What you sow, in time you will also reap. Do not give in to the urge to sin. Fight it in your own life, even with violence if necessary.

Some of you are thinking about "little white lies". This title is a **justification for evil deeds. I approve of these methods only when unrighteous people pass godless laws to suppress the faith and knowledge of God.** For this reason, smuggling Bibles to countries that prohibit Bibles is approved by Me. **Just be careful not to take advantage of this rule for your personal benefit**, that is, to cheat on your income tax in order to be able to support a mission through it. Give to Caesar what belongs to Caesar, and you will have peace. **Be righteous men and women so that you do not bring shame to My name.**

**Man cannot imagine what will befall this earth or what is happening now before his eyes. His mind has been manipulated to see things that are not there and to be blind to what is there. That is why you must go deeper in your lives, children. Do not be a part of the matrix of lies; lies that are spread daily by the media.**

The origin of these lies is none other than Satan, the father of lies, who is bent on destroying the earth and enslaving its inhabitants by enticing them to worship him in return for prosperity, health and protection.

Do not enter into the net of lies which he has stretched over the earth. Rather, seek Me every day, and I will reveal the truth to you, either spoken or through My Spirit. But I will not leave you in ignorance of the forces to which you are blind.

**With this knowledge comes the mandate to pray for these people who are in the clutches of Satan's lies and empty promises.** They will never be saved unless you cover them with prayers for their salvation. **Many of them think they are doing something good and necessary by deceiving the public. It will be too late for them when these things, which are deliberately concealed, happen. That is why I need your prayers for them.**

They were carefully brought up from childhood believing that these secret plans would bring a better world. They were not given the grace to know the truth. Pray for this, and I will answer your prayers.

My people around the world, pray: 'Father in heaven, please open the eyes of the blind and deceived so that they can see the true intentions behind the many actions, such as destroying food stores, poisoning water, and using electrical devices to spy on us.'

**So many are being watched and grouped for manipulation and destruction.** Many are marked for destruction and do not know it. But I laugh at the plans of men, for I alone have the power to stop them and protect others.

**Do not be afraid of people!** Know that I am with you and uphold your cause, and when I want to call you to Me, it will be done quickly and mercifully. Nothing is worth the loss of your souls!

There are really eight dimensions in the world that I have created. Normally you move in only one dimension, which people call reality, but the other dimensions are also reality, just with different physiological characteristics and boundaries.

So when we talk to each other, dance or fly in the spirit world, all that is real in the second dimension. And that dimension is a very real world, and many people who have made efforts to expand their understanding are at home in that dimension. And it is true – in the spirit world you are at home because you are spirit.

Then there are subatomic dimensions that you do not need to know yet, but they exist as part of the real world that I have created. In time, you will come to understand them all. Time is another dimension. That is why people can travel forward or backward in time. I prefer that they do not, because they will most likely not be able to return, and so it is a real death for them in this world.

The demons are ruthless and take advantage of people's travel to and from other realities. They are also not limited by the dimension in which they operate most of the time. They can manipulate matter, energy, space and time, all dimensions deeper than their dimension. The eighth dimension is denied to them because of the blackness and heaviness of their sinful souls. The eighth dimension is open only to the saints and the angels and those on earth who are without guile and belong to God alone. All music emanating from this dimension is highly anointed to open the gates of heaven for the listeners to enter. This is also commonly referred to as the "Open Heavens".

There is so much more than you can see or that is allowed to be perceived – whether by circumstance, by your state of mind, or desires, or what you deem relevant and worth knowing. But basically, if you need to operate in another dimension, you will be given the means to do so."
