

Jesus says... Asteroids and comets coming your way and "spying through cell phones"

September 12, 2022 – Words from Jesus to Udo for the heart dwellers and all who have ears to hear

"A cosmic debris field is on its way to you. These huge and vast debris fields, containing asteroids and comets, will hit the earth in various places and bring about changes not only in the physical world but also in people's minds.

Scientists have long studied when and where asteroids will hit, and the enemy is using this information to cause changes in your thoughts and perceptions. He will use fear, worry and excitement to control thoughts and manipulate mindsets.

The use of these wavelengths, the use of military spy software to track my people and spy on their phones, thereby obtaining information and taking them out, has been practiced for years. Today's technology is far advanced and its evil intentions are being implemented with greater efficiency. Most countries monitor their citizens and the employees of intelligence agencies with high-tech, using spy programs as well as drones. The exceedingly large and unregulated private spy program industry can perform forensic analysis of cell phones, showing a close link between the time stamps associated with a phone number in your contact list and the start of surveillance, all within a few seconds.

The Saudi prince seen by brother Udo is one of the targets that the elites are extremely interested in.... Thousands of people in more than 50 countries, royal families, businessmen, journalists, politicians, government officials, military officers and heads of state have been illegally tracked via their cell phones by advanced spy software.

I would be pleased if you would spend less time with these devices and more time with Me. There will be times when you will no longer have access to your electronic devices and will no longer be able to use them. It would be wise to practice this now: Regular breaks where you turn off those devices and enter into worship or simply spend time with Me. I will provide and equip you with far more than what technology can offer.

Come, My children, rest with Me, and you will understand the fullness of My love and the overflowing joy I have for you as we spend time together."
